Consumer reviews: - Blade II (2002) is a vampire superhero action horror sequel to the film's original film Blade (1998). We have a future ass sequel R rated blow ass the first movie you go to daryl dixon combination, which still looks the same and the ball is headed to Hellboy Excellent!!! Blade II is a wonderful film!!!! Not only does it take 4 years for this movie to come out of the last movie, but we see Wesley Snipes coming back as Blade and he is awesome! Blade (Wesley Snipes) has long been looking for his old-time companion Whistler (Kris Kristofferson). Whistler was captured by vampires and Blade was slaughtered his way through vampire clans in several countries to find him. Now, though, there is another threat to the human race, which also affects the vampires themselves. There are several Movies that you walk into are hoping for lots of killing. lots of sworn and snappy dialogue. Blade II is such a film, and it is great. The plot is large (albeit a little predictable) and some computer graphics are very noticeable, but overall it is a great action film. So many people dying in body counts would be impossible.
